# MAGPIE™

## MAGNETIC HEAT TRANSFER PRESS

The **DECO TECH MAGPIE** heat transfer press is well suited for either small or large shops and great for jobs big or small. The **MAGPIE** heat transfer press features a 400 x 500mm (15.74" x 19.68") platen so it is large enough for most any transfer printing job. You can use the **MAGPIE** to transfer heat set decals and sublimation dye graphics onto natural and synthetic fabrics, finished garments, mouse pads and other soft or hard goods. The **MAGPIE** features a digital temperature control and operates in the 320° to 750°F (160°-400°C) range with accuracy of  $\pm 1^\circ$ . The **MAGPIE** also features a digital timer and a magnet clamping system that automatically releases the heads pressure when the set time is reached, making the **MAGPIE** a real song bird (a little bird humor). Give us a call for pricing @ **(800) 300-DECO**.

## PRESS SPECS

|                                    |  |
