X-POSÉ

PAD PRINTING CLICHÉ EXPOSURE UNITS

Our X-POSÉ™ exposure units are precision designed for your in-house etching of photo-polymer pad printing plates. They feature a solid built powder coated steel casement and they are outfitted with the following easy to use controls; 1) precision digital timer (programmable from 0 to 599 seconds), 2) on/off power switch, 3) vacuum pump switch, 4) vacuum pressure gauge and 5) vacuum release button. There are two standard sized X-POSÉ™ units available (see specs below) and there are also 4 other special order models available and the largest of those units can handle a pad printing cliché plate up to 380 x 820mm (14.96" x 32.28").
